Ultimate Performance. Unparalleled Artistic Design

Stylish Design that Expresses Your Exquisite Taste

Glossy surfaces and an eye-catching power button, inspired by nocturnal lunar eclipse halos. Bright indication lighting comes on when the power is engaged, while the rest of the form maintains a quiet, stealthy approach, like a poem or painting describing the silent dark sky with a full moon and a mirror-like lake reflecting bright shadows.

Enhanced Graphics Performance and Peripheral Connectivity for Better Entertainment Experiences

The P6-P7H55E supports DirectX10 for enhanced graphics capabilities. Multiple display ports and a 3-in-1 card reader are available to provide rich connectivity. Plus, 8-channel HD audio is included, offering a new experience of home entertainment and multimedia enjoyment.

Excellent Thermal Acoustic Solutions

Unique ASUS Q-Fan technology automatically detects CPU load and temperatures, helping the P6-P7H55E provide the best thermal noise reduction solutions for a cool and quiet environment.

Dual-Channel DDR3 1333MHz Support

P6-P7H55E supports DDR3 memory that features data transfer rates of 1333/1066MHz to meet the higher bandwidth requirements of the latest operating systems, graphics, multimedia, and applications. Dual-channel DDR3 architecture doubles the bandwidth of system memory to boost performance.

Exclusive EPU Power Saving Technology

ASUS barebones products have always kept their promise of helping you lead a sustainable lifestyle. The P6-P7H55E is equipped with a brand new power saving design— the EPU. It delivers intelligent power management, resulting in reduced consumption and big savings. Moreover, the P6-P7H55E follows EUP standards to promote greener computing.
